Re: Correspondence(s) dated August 17, 2012; and
Correspondence dated September 4, 2012.

Dear Ms. Broomhead,

Thank you for the opportunity to respond to these letters. I have responded previously, and I spoke with you on the phone numerous times explaining the situation our committee is in. I am finally getting a handle on the reports after our Treasurer left us at the first of last year. I will answer your correspondence in order.

-First, the letter referencing the "Year-End Report (07/01/2011 - 12/31/2011)". I amended the report and it should comport with all the questions you asked. When our Treasurer left, apparently the report he filed (Mid-Year Report) was correct. However, it was not adequately saved, so the report to follow was messed up. I believe it is under control now.

-Second, the letter referencing the "Mid-Year Report (01/01/2011 - 06/30/2011)". I have combed through that report to try and fix the information you asked for. Again, I did not file this report, so I am looking at it from a new perspective as well. I believe it also is fixed to your liking.

-Lastly, the letter referencing the "April Quarterly Report (01/01/2012 - 03/31/2012)". Again, I believe this is now fixed. As I stated earlier, the report filed in "Mid-Year 2011" was incorrect in our database, but that has now been changed to adequately reflect the issue you stated. I am in the process of amending that report further because I found a few issues that needed clarity.

I want to thank you and the FEC for your help in finding some of these errors. I hope in the coming few months to get everything underway in a better process. Thank you again.

Sincerely,

Nathan M. Haney
Treasurer
